CONSENT FOR TELEHEALTH

I understand that my health care provider wishes me to engage in a telehealth consultation.

1. It has been explained to me how the video conferencing technology that will be used to affect such a telehealth psychotherapy session will not be the same as a direct client/health care provider visit due to the fact that I will not be in the same room as my provider.
2. I understand that a telehealth psychotherapy session has potential benefits including easier access to care and the convenience of meeting from a location of my choosing.
3. I understand there are potential risks to this technology, including interruptions, unauthorized access, and technical difficulties. I understand that my health care provider or I can discontinue the telehealth consult/visit if it is felt that the videoconferencing connections are not adequate for the situation.
4. I have had a direct conversation upon scheduling a telehealth session during which I had the opportunity to ask questions in regard to this procedure. My questions have been answered and the risks, benefits and any practical alternatives have been discussed with me in a language in which I understand.
